卷 A 26 分 (时间 30 分钟)

PART A

1. In a list of numbers, the first number is 3, the second is 4, and each subsequent number is the sum of all the preceding numbers in the list. If the 20th number in the list is x , what is the 25th number in the list? (2 分)
(A) $7x$ (B) $16x$ (C) $32x$ (D) $35x$ (E) $161x$

2. The graph shows how a sample of 10 different voters (vertical axis) voted for 5 different candidates (horizontal axis). Each voter voted for either one or two of the five candidates (No voter voted twice for the same candidate). The two candidates receiving the most votes were the winners. The sample constituted 5 percent of those in the district who voted, and the number of votes in the district for each candidate was in the same proportion as the number of votes in the sample for each candidate.

What fraction of the total number of votes cast did the two winners receive? (2 分)

(A) $11/18$ (B) $11/22$ (C) $1/2$ (D) $1/3$ (E) $3/10$

3. To produce seeds, plants must first produce flowers. Two kinds of tarragon plants, Russian tarragon and French tarragon, look very similar except that Russian tarragon produces flowers and French tarragon does not. The leaves of Russian tarragon, however, lack the distinctive flavor that makes French tarragon a desirable culinary herb.

If the information presented is true, which of the following can most reliably be concluded on the basis of it? (2 分)

- (A) As a decorative plant, French tarragon is more desirable than Russian tarragon.
- (B) The flowers of Russian tarragon plants are probably not flavorful.
- (C) Plants that grow from seeds sold in a packet labeled "tarragon" are not French tarragon.
- (D) There are no other kinds of tarragon besides Russian tarragon and French tarragon.
- (E) Garden plants that have flavorful leaves generally do not produce flowers.

PART B

1. For each question 1-5, mark one letter (A, B, C or D) for the correct answer.: (10 分)

[The Reader's digest investigation asked Americans which was the biggest threat to the nation's future—big business, big labor or big government. A whopping 67 percent replied "big government"

Opinion researchers rarely see such a vast change in public attitude. When put in historical perspective, from the time of Franklin Roosevelt's New Deal to the present, the fallen status of government as a protector and benefactor is extraordinary. We've returned to the instinctive American wariness of Washington so common before the Great Depression.
